BNL Summary Table - Highlights on Active Homelessness in HRM

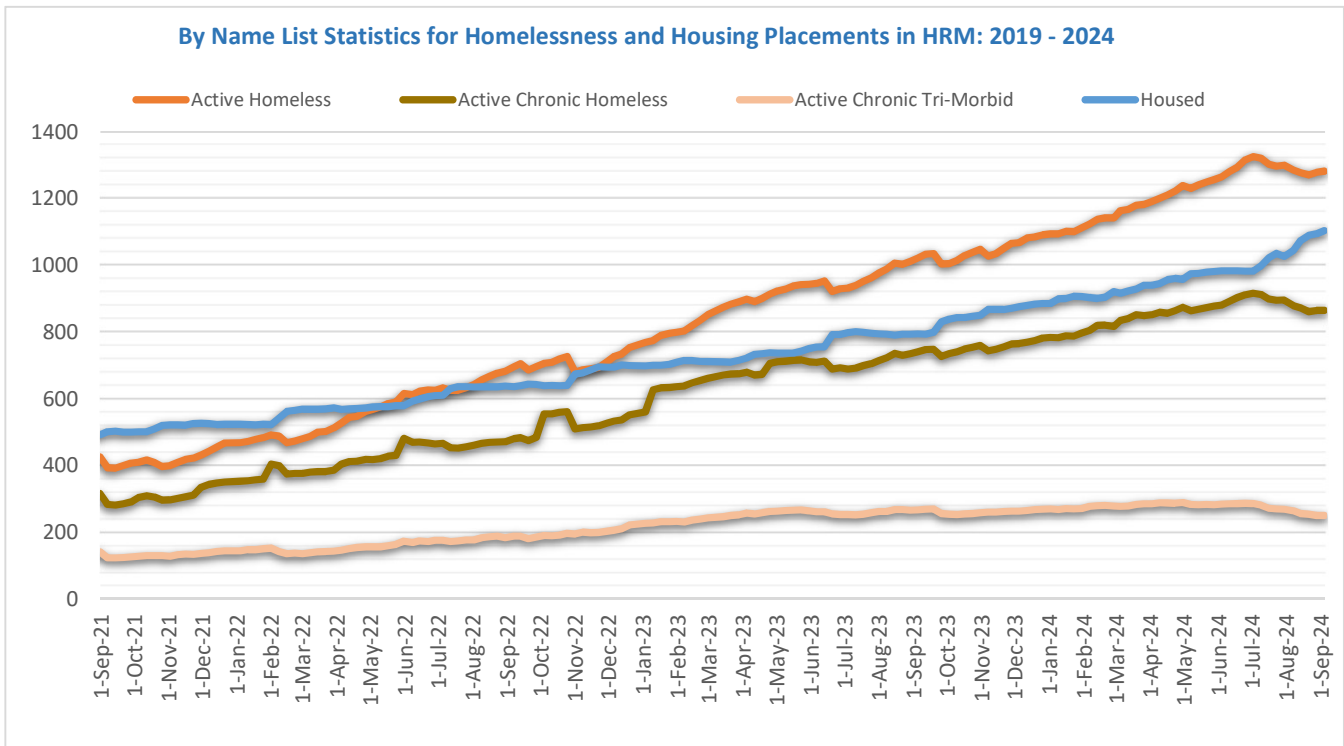

Week of 04-Sep-24

Highlights of the Week of September 4, 2024

	Current Week	Previous Week	Changes: +
BNL Total	2834	2823	11
Active Homeless	1282	1279	3
Active Chronic Homeless	865	865	0
Active Homeless Tri/Co Morbid	250	250	0

Despite the fact that 11 new individuals were added to the BNL for the first time over the past week because of new housing opportunities the active number only increased by 3 and both our chronic and tri and co-morbid numbers remained the same. With additional housing opportunities expected to open in the coming weeks there is potential to see the active number begin to drop.

Note: +/-positive numbers identify that more people entered homelessness since the last report and -/negative numbers identify that fewer people are experiencing homelessness (become "inactive" or "housed")

Note: The impact of few affordable housing options - with only 2.4% of the rental options affordable to households in the lowest 20% of income distribution, lowest vacancy rate of 1% and higher levels of rental arrears - correlates with marked increases to the number of households experiencing homelessness in 2023 and onward.
